

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee. I am on a retired fixed income that is barely able to pay for everything. I can't afford a cell phone and a home phone and all these long distance charges! I use my calling card with a low long distance rate and my tracfone for trips and travel. Please leave these alone! don't raise these rates for us! Thank you, Nancy Thompson, 124 Rainbow Road, Heber Springs, Arkansas 72543

Keep the USF Fair!

Sincerely,

Nancy Thompson
